Fogarty Made Fun

Look Inside - We have Something for Everyone!

FOGARTY MADE FUN

Welcome to Fogarty Made Fun—Semester 1– 2012!

This booklet contains all of the extra– curricular events and activities planned for Patrick Fogarty in semester one. Included are existing events along with many new , “first–time” ever activities. We hope that these new programs allow an even greater number of students to participate. We tried to include a range of activities that would appeal to our diverse student body.

When specific dates are not included in the booklet they will be made available on a weekly calendar that allows the students to know when upcoming activities are taking place.. Also this booklet will be available on the PF website and information will be updated there.

FOGARTY MADE FUN
