FINANCING YOUR EDUCATION

ONTARIO STUDENT ASSISTANCE PROGRAM (OSAP)

The **Ontario Student Assistance Program (OSAP)** offers two kinds of money:

- grants: money you don't have to pay back
- a student loan you need to repay

Both the Ontario government and federal government provide this money.

Through **one** OSAP application, you have access to a mix of different financial aid programs, depending on your circumstances.

If you apply for OSAP, you are automatically considered for **30% off your tuition**, too. You don't need to apply separately.

You can get OSAP to attend a public or private postsecondary school located anywhere in the world, as long as it's approved for OSAP.

How much can I get?

The amount of money you can get depends on:

- **Your education expenses:** the amount of money you need to cover tuition, books, child care, personal living expenses, supplies and equipment.
- **Your personal financial situation:** how much you and your family are expected to contribute, based on income and other factors.
- **Your course load:** full or part-time.

The basic formula is:

Allowed education expenses – money you're expected to contribute = financial need

Maximum amount

The maximum amount you can get for one academic year (two terms) for a typical, **full-time** student who is single with no dependents is \$12,240.

30% OFF TUITION GRANT:

Money you don't have to repay if you are proceeding from high school to a public university or college. Students who apply for OSAP are automatically considered.

For 2014-15, the amount of the grant is as follows:

- \$1780 for university and college degree students
- \$ 820 for college diploma students
